Ferrum Engineering caters for the design and fabrication of steel works. It has a workshop area of approximately 1100 sq.m. with a 10 ton overhead crane to mobilize any kind of heavy job.

We comply with Australian and PNG standards for all the works to provide excellent and robust products.

We are committed to satisfy your requirements and provide you with a very competitive price.

Products & Services:

DRAFTING & SHOP DRAWING

METAL & STEEL FABRICATORS

STRUCTURAL STEEL ERECTION

SPECIALIZED WELDING - TIG / MIG / ARC

REINFORCING BARS - CUT & BEND

TRUCK BODIES & BOAT TRAILERS

SAND BLAST & SPRAY PAINTING

THE ESTABLISHMENT

Ferrum Engineering is a trading company of **NGO Holdings Limited**, NGO is composed of Digara Construction (general construction), Ferrum Engineering (steel fabrication), and Rapid Hire (Equipment Hire). Ferrum Engineering was fully operational after its completion of the workshop building last January 2011. In just a short time it already provided services on steel fabrication, erection of structural steel, drafting and shop drawing, specialized welding—TIG/MIG/ARC, reinforcing bars-cut and bend, sand blasting, and spray painting. Some of the products were water tank, boat trailers, communication tower, tool box on wheels, structural steel fabrication, fencing and gate. Our management team comprises of General Manager with 25 years of experience in the mechanical and engineering, workshop supervisor with 27 years experience in various well established companies around PNG, civil engineer contract supervisor and a workforce of 34 manpower with boiler maker.

QUALITY POLICY STATEMENT

At this early stage of the company we have developed plans and control measures in workshop and site operation which are continually monitored to improved levels of quality.

Objectives and control issues include:

1. Understand the unique need of each client, and to offer economical and effective solutions
2. Enhance the skills of our personnel which will improve our products and services.
3. Planning and controlling of projects to eliminate errors and lost of time
4. Always provide customer with required quality and take immediate appropriate action when performance does not comply client's expectation.

OUR PRINCIPLES

Put PNG First – In all we do, we will put PNG people and the country's interest first

Think Globally, Act Locally – We will strive to adopt international best practices where practical to achieve our goals.

Strength Through Diversity – We will value diversity as our source of strength to forming a committed, cohesive and dynamic team

Take Ownership – We will take ownership of our actions and decisions and we will make it happen

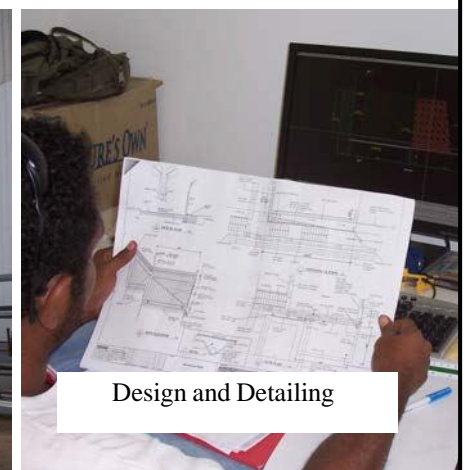

Kina Wise – We will value money as a finite resource that always needs to be managed wisely
